

Table Talk Series[®]

There's an Elephant in the Room – Let's Talk about Long-Term Care Planning Before a Crisis!

Many adults feel that it's just too difficult or scary to talk or even think about the possibility of needing long-term care assistance due to accident, chronic illness or simply as we age. Most are unaware of the different plan types and that pricing can be customized to fit our budgets. Fewer know that Illinois is a Long-Term Care Partnership state which helps in protecting our assets.

On Wednesday, June 12, certified long-term care professional Carol Brandt, CLTC[®] will guest speak for Elderwerks on these topics while we try something new. This is an opportunity to socialize with the Elderwerks team and personally meet Carol Brandt, learning from a specialist in long-term care planning.

Attendees of Carol's Table Talk[®] may choose to attend either a "live watch" event with complimentary popcorn and soft drinks at our Elderwerks headquarters in Palatine or may participate via Zoom. Registration to the "live watch" event is limited so please RSVP early.

Yes, There's an Elephant in the Room but we can go from being scared to better prepared with education and planning while Carol and the Elderwerks team make learning fun!

Adults of all ages, this is for you and your families!

Wednesday, June 12, 2024

Program: 6:00-7:00 PM + Q&A

In-Person and Virtual Presentation

**Reservations are required,
