## **CDC Announces New Eviction Moratorium**

The CDC has issued an order that bars evictions for most renters for the rest of the year. To be covered under this new moratorium, tenants will have to provide their landlord with a declaration that certifies they meet certain criteria such as an inability to pay rent due to a substantial loss of household income. You can find a draft of the order [here](#), including the language that must be in the declaration. Forms will be available on the CDC website once the order is published in the Federal Register on September 4th.

## **HUD ESG-CV Notice**

HUD has announced an ESG-CV Notice and Reporting Requirements Training Series. You can find more information on these webinars on the [HUD website](#).
