

DATA BREACH PROTECTION

Presented by Michael and Judy Yublosky
WACI Tips, a Division of A-BnC Parties and More, Inc.

The recent National Public Data (NPD) leak is probably the most significant in history, with far-reaching implications for hundreds of millions of American citizens.

Hackers stole nearly three billion records, which are now posted on the dark web.

This exposed sensitive personal information makes it easier for criminals to commit various forms of identity theft, scams, fraud, financial hardship as well as the resulting emotional distress.

Join Michael & Judy to learn how to protect yourself and loved ones.

WEDNESDAY, OCTOBER 16, 2024

10:00 AM TO 11:00 AM - LIVE VIRTUAL PRESENTATION

All are Welcome though Reservations are required.
