

Did You Just Say the “H” Word?

This course meets IDFPR requirements for 1.0 CEU certification for Nurses and Social Workers.

Many myths and misconceptions exist around Hospice. This program is designed to identify these common misconceptions and identify how to effectively overcome these barriers by utilizing an inter-disciplinary team approach. We will also analyze data on cultural, gender, age and spiritual variations relevant to acceptance of hospice care, identify ethical concerns for the healthcare/hospice professionals who are asked to not mention the “H” word or advise patient of terminal prognosis, and learn how to normalize death for our patients and families.

Guests will listen and learn from **Katie Monahan Brooks**
Manager of Business Development at Transitions Hospice

Zoom On-Line Seminar Hosted By:

Tuesday, January 19, 2021
