## **211 Outreach Updates**

### **Connecting with Families in Antioch**

In partnership with School District 34, 211 had the opportunity to meet with families during Parent–Teacher Conferences in Antioch. These conversations help strengthen community ties and ensure families know where to turn when they need support.

### **Learning and Partner Engagement**

On December 6, 211 joined the Lake County Health Department’s NEED2KNOW Team at the World AIDS Day event. A key takeaway was the discussion about how overlapping stigmas—related to race, gender, sexual orientation, and health—can create barriers to care. Understanding these challenges helps us better support all members of our community.

We were grateful to be part of a day that honored the resilience and contributions of people living with HIV and reaffirmed the importance of access to care without stigma.

## **United Is the Way to a Stronger, More Connected Lake County**

Since launching in 2019, 211 Lake County has made more than 407,000 connections to help and continues to transform how our community accesses

essential resources. It strengthens the entire network of health and human service providers by helping people reach the right support at the right time.

As we look ahead, we invite you to join us in this work. **Your support helps ensure that every person in Lake County can access help when they need it most.**

**United is the Way to a stronger, more resilient community.**
