

Join Us: Support Groups for Caregivers of those with Dementia

Providing care for someone with Dementia can be hard! You do not have to walk this path alone. The HAP Foundation offers monthly support groups for Dementia Caregivers.

The Dementia Caregiver Support Program provides a team of trained Community Health Workers (CHWs) to deliver education and support for caregivers of people with Alzheimer's and Dementia-Related disease. Our groups offer a shared space for peer support and community-building.

DEMENTIA CAREGIVERS Support Groups

Even **HELPERS** need a little **HELP**.

For more information, visit HelpGuideThrive.org

Support Groups are scheduled every month, call or visit the link to register
