

## United Way of Lake County

### COVID 19 Response Volunteer Opportunities

**Our number one priority is the safety and well-being of our staff, volunteers, agency partners and the community we serve.**

United Way of Lake County is closely watching the developments of the Coronavirus (COVID-19) and assessing the situation daily, following all recommendations from the Federal Government, Center for Disease Control and Lake County Health Department. In conjunction with local health officials, we are working to slow the spread of the person-to-person transmission, particularly those who are most vulnerable to infection and severe disease. Please be assured our focus on providing continued service to the community is unchanged. We are currently involved in conversations with community partners to address emerging community needs issues.

General Guidelines for Volunteers. Please do not volunteer for any on site activity if in the last 14 days you have:

- Been on a cruise or been in an airport
- Been around anyone who has been sick with cough, flu, or COVID 19
- Been to an event where more than 100 people were in attendance.

In the meanwhile, consider taking these precautions to ensure a safer environment for all in the community.

- Practice **social distancing**
- **Stay home** when possible and limiting personal interactions
- **Wash your hands** often and with soap and water for at least 20 seconds, especially after you have been in a public place, sneezing, coughing, or touching your face. Alternatively, use alcohol solution hand sanitizer (at least 70% alcohol) when soap and water are not available.
- **Cover your mouth and nose** with a tissue when you cough or sneeze then throw tissue away
